FIXER UV

1. Summary:

Fixer UV is an exclusive additive for Chromicolor® UV Screen Ink and is effective in strengthening ink membrane as well improving adhesion onto difficult substrates like glass, chinaware, PP and PE. Corona treatment of the PE and PP will also aid adhesion.

2. Physical Characteristic:

Appearance: Color less transparent liquid
Composition: Organic silicone compound
Specific Gravity: 1.02

3. Usage:

Fixer UV should be used within the range of 0.5 -3% for Chromicolor. After Fixer UV is added, pot life is 4-5 hours.

4. N.B.:

Fixer UV should be stored in a cool, dark place.
